

I am married to Anthony Tiller and have three children. I love spending time with family and friends, being outdoors, running and being active in church.

I have been teaching science in Haywood County schools for fourteen years. As a certified teacher, I have taught in elementary, middle, and high school and have loved each grade level for its unique needs and challenges. I am so blessed to be a teacher at Canton Middle and am so grateful to be surrounded by such outstanding, loving, compassionate, and genuine colleagues who push me to be a better teacher and person each day.

I became a teacher for many reasons but the main one is my love for people and the hope I see when I look at each of my students. I see the possibilities each student holds and pray they will find the motivation, knowledge, and confidence to stand up for what they believe and go out from our school into the community and world to make a positive change- to make a difference to those less fortunate, those in need of discoveries, and those who need help to see the possibilities within themselves.
